## PERSONAL PROJECTS

Electric Power Generation from GYM Equipment (06/2020 - 06/2021)

- The project aimed to generate renewable energy from gym equipment by converting mechanical energy into electrical energy using a generator-based system.

HomesteaderIndia (09/2023 - 01/2024)

- HomesteaderIndia is a farming project built using the Spring Boot Framework and Postgresql as a database with three modules: farmer, agroagency, and admin.
- The platform offers crop, fertilizer, and vegetable solutions, soil analysis, weather updates, and agriculture training for farmers and students.
